MOHIT BUDHATHOKI

Network Technician | IT Support | Aspiring Cybersecurity Professional

Kathmandu, Nepal | +977 9845666125 | mohitbudhathoki040@gmail.com

PROFESSIONAL SUMMARY

Network Technician with a Bachelor of Engineering (Honours) in Computing (Computer Network Engineering), practical experience in LAN, WAN and Wi-Fi infrastructure, and growing hands-on cybersecurity skills through a Kali Linux home lab, TryHackMe labs and Cisco Packet Tracer. Skilled in IP addressing, DHCP, DNS, structured cabling and network diagnostics. Over a year of hospitality experience with online travel agencies (OTAs), overseeing OTA operations across multiple properties, including extranet and inventory management, rate-parity audits and sales reporting.

CORE SKILLS

Cybersecurity (developing): Ethical hacking and security labs (self-study); baseline network security; Wireshark packet analysis
Networking: IP addressing, LAN/WAN, Wi-Fi, routers, switches, access points, modems, DHCP, DNS
Troubleshooting & Support: Network diagnostics, fault isolation, technical support, incident and configuration documentation
Infrastructure: Structured cabling, termination and testing; equipment installation, upgrade and replacement
Tools & Platforms: Kali Linux, Wireshark, Cisco Packet Tracer, VMware Fusion, MS Office (Excel, Word, PowerPoint)
Languages: English, Nepali, Hindi

CYBERSECURITY LABS & SELF-STUDY

- Home lab: Kali Linux VM on VMware Fusion for hands-on Linux, networking and security practice.
- Network project: built and simulated a network in Cisco Packet Tracer; analyse traffic with Wireshark.
- TryHackMe: completing hands-on cybersecurity labs to develop practical security skills.

PROFESSIONAL EXPERIENCE

Lavish Technology Pvt. Ltd. | Kathmandu, Nepal — Sep 2026 – Present
Network Technician

- Deploy, configure and maintain routers, switches, access points and modems at client sites and user workstations.
- Monitor network performance; troubleshoot connectivity, hardware and configuration faults across LAN, WAN and Wi-Fi.
- Configure IP addressing, DHCP, DNS and baseline network security settings.
- Perform structured cabling, termination, testing and fault-finding.
- Support the installation, upgrade and replacement of networking equipment.
- Document network configurations, equipment inventory and troubleshooting activity.
- Escalate complex issues to senior IT and network engineers and collaborate on resolution.

Barahi Hospitality and Leisure | Kathmandu, Nepal — Mar 2025 – Aug 2026
OTA Associate – Sales and Marketing | Oct 2025 – Aug 2026

- Oversaw OTA operations across the properties under Barahi Hospitality & Leisure.
- Managed OTA extranet updates (availability, stop-sells, inventory) to keep listings accurate and bookable.
- Conducted daily multi-channel rate-parity audits and prepared Excel sales reports for pricing review.

On-the-Job Trainee – OTA Marketing & Communication | Mar 2025 – Sep 2025

- Processed reservations from OTA platforms and direct sales calls, ensuring accurate data entry and confirmation in the property management system.
- Worked with internal teams and OTA partners to resolve booking discrepancies and maintain listing accuracy.

EDUCATION

Bachelor of Engineering (Honours) in Computing (Computer Network Engineering) — 2022 – 2025
Naaya Aayam Multi Disciplinary Institute

High School – Technical and Vocational Education (Computer Engineering) — 2020 – 2022
Bal Uddhar Secondary School

INTERESTS

Cybersecurity, Digital Forensics, Networking, AI and Automation, Kickboxing, Travel and Cultural Exploration.
